PREFACE

DE

Mit voller Energie haben wir erneut eine Kollektion mit vielen Farben, feinsten Mustern und besonderen Materialien entworfen. Unsere grenzenlose Faszination für die Natur ist wieder deutlich in der Herbst/Winter '24 Kollektion zu sehen. Diese Kombination mit unserer Liebe zu den Werken der alten Meister schafft eine Kollektion, in der die Vergangenheit von neuem mit dem Rhythmus der Gegenwart verschmilzt.

Für diese Kollektion ließen wir uns als Team von "Alice im Wunderland" für die Fotografie inspirieren. "Alice im Wunderland", geschrieben von Lewis Carroll im Jahr 1865, wird aufgrund von traumhaften Szenen und bizarren, oft unlogischen Ereignissen mit Surrealismus in Verbindung gebracht. Die traumhafte Welt, in der die Grenzen der Realität überschritten werden, haben wir für diese Herbst-Winter-Kollektion angewandt.

Um diese Welt Wirklichkeit werden zu lassen, sind wir eine Zusammenarbeit mit der Künstlerin Linda Nieuwstad eingegangen. Sie schafft lebensgroße Blumenskulpturen, alle komplett aus Restmaterialien gefertigt. Damit haben wir ein Dekor geschaffen, in dem die Blumenstillleben ein surrealistisches Bild zeigen. Man fühlt sich wortwörtlich in die Welt der Natur versetzt, wo menschliche Maßstäbe keine Rolle spielen. Man kann sich verlieren, verschwinden und in den herrlichen Bildern träumen.

Neben dem Kampagnenbild, in dem wir der Natur buchstäblich eine Hauptrolle gegeben haben, haben wir den Rest der Fotografie eher häuslich gestaltet. Diesmal keine Landhäuser mit reicher Geschichte, sondern zurück zu einem Zuhause.

Persönlich macht mich diese Saison die Balance in der Kollektion sehr glücklich. Neben wunderschön ausgearbeiteten Mustern und spannenden Farbkombinationen wählen wir auch ganz bewusst einen ruhigeren Weg. Drucke bekommen immer noch ihre Bühne, aber dann in einer Farbe. Wir verwenden sehr matte Materialien mit Strukturen in Matelassé. Das Design behält seine Tiefe bei, ohne Schichten hinzuzufügen. Ich bin ein Fan dieser schicken, stilvollen Produkte.

Beste Wünsche für einen inspirierenden Winter

Full of energy, we have once again designed a collection with lots of colours, the finest prints and unique fabrics. Our boundless fascination with nature is as always clearly visible in the Fall/Winter '24 collection. Combined with our love for the work of the old masters, it creates a collection in which the past merges perfectly with the rhythm of the present.

For this collection, as a team, we were inspired 'Alice in Wonderland' for the photography. Alice in Wonderland, written by Lewis Carroll in 1865, is often associated with surrealism due to its dreamlike scenes and bizarre, often illogical events. The dreamlike world, where the boundaries of reality are exceeded, has been applied to this Fall/Winter collection.

To make this world reality, we have been collaborating with the artist Linda Nieuwstad. She created life-size flower sculptures, all made from residual materials. With these flowers, we have created a backdrop where the floral life presents a surrealistic image. You literally find yourself in a world of nature where human scale plays no role. You can get lost, disappear, and dream away in the beautiful images.

Next to these campaign images, where we have given nature a leading role, we have made the rest of the photography more homely. This time no country houses with a rich history, but back to a more ordinary house, in a warm home.

Personally, what also makes me happy this season is the balance within the collection. In addition to beautifully elaborated designs and exciting colour combinations, we are also consciously choosing a calmer path. Prints still take their stage, but in a single shade. We are using very matte fabrics with structures in matelassé. The design retains its depth without applying layers. I am a fan of these chic, stylish products.

Wishing you an inspiring winter.

Warm regards,

Vol energie hebben we opnieuw een collectie ontworpen met veel kleur, de fijnste prints en bijzondere materialen. Onze mateloze fascinatie voor de natuur is opnieuw duidelijk zichtbaar in de Fall/Winter '24 collectie. Deze gecombineerd met onze liefde voor de werken van de oude meesters, maakt een collectie waarin het verleden wederom samensmelt met het ritme van het heden.

Deze collectie hebben we ons als team voor de fotografie laten inspireren door Alice in Wonderland. Alice in Wonderland, geschreven door Lewis Carroll in 1865, wordt vaak geassocieerd met surrealisme door droomachtige scènes en bizarre, vaak onlogische gebeurtenissen. De droomachtige wereld, waarin de grenzen van realiteit worden overschreden hebben wij toegepast voor deze herfst winter collectie.

Om deze wereld werkelijkheid te laten worden zijn we een samenwerking aangegaan met kunstenaar Linda Nieuwstad. Zijn maakt levensgrote bloemsculpturen, allemaal volledig gemaakt van restmaterialen. Hiermee hebben een decor gemaakt waar de bloemstillevens een surrealistisch beeld laten zien. Je waant je letterlijk in de wereld van de natuur waar de menselijke maat geen rol speelt. Je kan verdwalen, verdwijnen en wegdromen in de prachtige beelden.

Naast campagne beeld waar we de natuur letterlijk een hoofdrol hebben gegeven, hebben we de rest van de fotografie juist huiselijker gemaakt. Dit geen keer landhuizen met een rijke geschiedenis, maar terug naar een thuis.

Waar ik persoonlijk dit seizoen ook erg blij van wordt, is de balans binnen de collectie. Naast prachtig uitgewerkte dessins en spannende kleurcombinaties, kiezen we ook heel bewust voor een rustigere pad. Prints pakken nog steeds hun podium, maar dan in één kleur. We maken gebruik van zeer matte materialen met structuren in matelassé. Het dessin blijft haar diepte behouden, zonder lagen toe te passen. Ik ben fan van deze chique, stijlvolle producten.

Een inspirerende winter gewenst.

Lieve groet,

IN BETWEEN DREAMS

DE

Tauche ein in die ESSENZA Herbst/Winter 2024 Kollektion, wo Träume und Realität sich in einer Symphonie aus Farbe und Design treffen. "In between dreams" lädt ein in eine Welt, in der die Grenzen zwischen Träumen und Erwachen verschwimmen und wo sich die Natur in einer reinen und zeitlosen Form offenbart.

Diese Kollektion, voller Lebendigkeit und Farbe, ist unsere Hommage an die Natur und die klassischen Künste. Sie ist eine Fusion von Vergangenheit und Gegenwart, eine Verschmelzung von alten Meisterwerken und zeitgenössischer Ästhetik. Die Muster spiegeln unsere Bewunderung für die Natur und ihre unvergängliche Schönheit wider.

Manchmal finden wir Inspiration nahe am Zuhause, bei einem Spaziergang durch den Wald oder in unserem eigenen Garten. Dort, zwischen dem Tanz der Blätter und dem Flüstern des Windes, offenbaren sich Geheimnisse, die uns kein Museum lehren kann. Die Natur, in ihrer unbefangenen Pracht, kennt keine Vergänglichkeit von Stil oder Mode. Mutter Erde ist die ewige Muse, die uns inspiriert, Designs zu schaffen, die die Zeit mühelos überdauern. Unsere Interpretation von Farbe und Komposition ist kühn und innovativ, aber auch tief verwurzelt in den zeitlosen Prinzipien der Natur.

Mit "True Blue" beginnen wir die Geschichte: ein Thema durchdrungen von serener Eleganz und natürlichen Tönen, gefolgt von "Rosy Future": ein Abenteuer im Avantgarde-Stil und kühne Farbkombinationen, die Positivität ausstrahlen.

Jedes Design in der Kollektion, von Aleste bis zur Marisol, ist mit Respekt vor den ursprünglichen Inspirationsquellen umsichtig gestaltet.

Die Farbkarte ist eine sorgfältig erstellte Mischung aus unserer eigenen Farbpalette, mit neutralen Tönen und ausgesprochen leuchtenden und tiefen Tönen, die der Kollektion eine einzigartige Dynamik verleihen.

Die ESSENZA Herbst/Winter 2024 Kollektion: eine Ode an die Natur und eine Reflexion unserer Träume, eingefangen in Material, Muster und Farbe, bereit, die Welt zu verschönern.

EN

Immerse yourself in the ESSENZA Fall/Winter 2024 collection, where dreams and reality meet in a symphony of colour and design. In between dreams invites you to a world where the boundaries between dreaming and waking up are fading, and where nature reveals itself in a pure and timeless form.

Full of vibrancy and colour, this collection is our tribute to both nature and the classical arts. It is a fusion of past and present, a fusion of ancient mastery and contemporary aesthetics. The prints reflect our admiration for nature and its imperishable beauty.

Sometimes we also find inspiration closer to home on a walk through the forest or in our own garden. There, among the dance of leaves and the whisper of the wind, secrets reveal themselves that no museum can teach us.

Nature, in its uninhibited splendour, knows no fleeting of style or fashion. Mother Earth is the eternal muse that inspires us to create designs that effortlessly stand the test of time. Our interpretation of colour and composition is bold and innovative, but also deeply rooted in the timeless principles of nature.

We start with our first chapter True Blue: a theme steeped in serene elegance and natural tones, followed by the second chapter Rosy Future: an adventure in avant-garde style and bold colour combinations that exude positivity.

Every print in the collection, from the Aleste to the Marisol, has been carefully designed with respect for its original inspirations.

The colour chart is a thoughtfully created mix of our own colour palette, with neutral shades and bold, bright or deep tones giving the collection a unique dynamic.

The ESSENZA Fall/Winter 2024 collection: an ode to nature and a reflection of our dreams, captured in fabric, print and colour, ready to beautify the world.

NL

Dompel jezelf onder in de ESSENZA Fall/Winter 2024 collectie, waar dromen en realiteit elkaar ontmoeten in een symfonie van kleur en ontwerp. In between dreams nodigt uit tot een wereld waar de grenzen tussen dromen en ontwaken vervagen, en waar de natuur zich onthult in een pure en tijdloze vorm.

Deze collectie, vol levendigheid en kleur, is ons eerbetoen aan zowel de natuur als de klassieke kunsten. Het is een fusie van verleden en heden, een samensmelting van oud meesterschap en hedendaagse esthetiek. De prints reflecteren onze bewondering voor de natuur en haar onvergankelijke schoonheid.

Soms vinden we juist inspiratie dichterbij huis tijdens een wandeling door het bos of in onze eigen tuin. Daar, tussen de dans van bladeren en het gefluister van de wind, openbaren zich geheimen die geen museum ons kan leren.

De natuur, in haar onbevangen pracht, kent geen vergankelijkheid van stijl of mode. Moeder Aarde is de eeuwige muze die ons inspireert tot het creëren van dessins die de tand des tijds moeiteloos doorstaan. Onze interpretatie van kleur en compositie is gedurfd en vernieuwend, maar ook diepgeworteld in de tijdloze principes van de natuur.

Met True Blue openen we het verhaal: een thema doordrenkt van serene elegantie en natuurlijke tinten, gevolgd door Rosy Future: een avontuur in avant-garde stijl en gewaagde kleurcombinaties die positiviteit uitstralen.

Elke print in de collectie, van de Aleste tot de Marisol, is zorgvuldig ontworpen met respect voor de originele inspiratiebronnen.

De kleurkaart is een zorgvuldig gecreëerde mix van ons eigen kleurbeeld, met neutrale tinten en uitgesproken, heldere of diepe tonen die de collectie een unieke dynamiek geven.

De ESSENZA Fall/Winter 2024 collectie: een ode aan de natuur en een reflectie van onze dromen, gevat in stof, print en kleur, klaar om de wereld te verfraaien.

Design Philippine features an enchanting floral pattern with the extraordinary ESSENZA character on a charcoal background colour. This makes the Philippine a true ode to refinement with attention to detail. The back of both the duvet cover and pillowcases are plain and without texture for a peaceful night's sleep.

Matelassé is a special weaving technique used to create a textured textile. The term 'matelassé' comes from France, meaning 'quilted' or 'padded'.

In matelassé weaving, two layers of fabric are joined together using an additional weft yarn. This extra yarn is inserted to create raised areas on the fabric, forming a relief pattern. The result is a fabric with a quilted appearance and a beautiful texture.

A duvet cover for a chic bedroom atmosphere with an elegant look.

Cotton sateen is, without a doubt, our favourite fabric for bedding. Cotton sateen is made from 100% natural cotton and therefore has the same characteristics as other cotton fabrics: breathability and moisture-wicking properties. Against a rich, dark background unfolds a scene which reminds us of 17th-century paintings. A vivid arrangement in which a stunning bouquet appears to rise from a vase, resting on antique books amidst pieces of fruit. This design was developed in collaboration with photographer Kreetta Järvenpää (born in 1974, Finland). Enrich your bedroom with this dynamic yet serene piece and experience the beauty of nature. Turn the duvet cover and pillowcases, and you capture a beautiful solid from the background colour of the print. The Floor is a variant of our Fleur, a beloved design from the ESSENZA archive, now in a full black and white print on a light cream-coloured background. The Floor owes its allure to quiet simplicity, as the print is tonally set up without losing the depth of the iconic floral pattern. This luxurious design is well-suited for a classic yet contemporary look and a serene atmosphere in the bedroom. Turn the duvet cover and discover a calming, solid cream colour.

Cotton sateen is, without a doubt, our favourite fabric for bedding. Cotton sateen is made from 100% natural cotton and therefore has the same characteristics as other cotton fabrics: breathability and moisture-wicking properties. A cotton sateen duvet cover feels much softer and smoother than a 'normal' cotton cover due to the special sateen weave that gives the fabric its sheen. The result is a fabric that looks and feels luxurious.

BURGUNDY

DE

Betreten Sie eine Welt des Avantgarde-Stils und einer farbenfrohen Zukunftsvision mit dem Thema ROSY FUTURE. In diesem Thema steht die Familie der Rosatöne zentral für eine positive Ausstrahlung.

Die tiefe Farbe 'Burgundy' sorgt für Leidenschaft, während der 'Mauve'-Ton einen zurückhaltenderen und bescheideneren Charakter verleiht. Violett, Lila und Rosa kommen in der Natur nicht oft vor, außer in Blumen, was diese Farben geheimnisvoll macht. Genau das, wonach wir für diese Kollektion gesucht haben. Deshalb passen diese Farben so gut zu unseren Blumenmustern. Für einen neutralen, aber tiefen Ton haben wir uns für eine Kombination mit 'Balsam Green' entschieden.

Dieses avantgardistische Thema wird durch gewagte Kombinationen verstärkt, die zunächst nicht logisch sind und dadurch interessant werden. Grün und Rosa stehen sich direkt gegenüber und kontrastieren, aber sie verstärken sich auch gegenseitig und kommen wunderschön zur Geltung, wenn sie miteinander kombiniert werden. Die Farbe 'Balsam Green' ist daher unverzichtbar.

EN

Enter a world of avant-garde style and a colourful vision for the future with the ROSY FUTURE theme. Within this theme, the family of pink shades stands central for a positive radiance.

Deep colour 'Burgundy' brings passion, while the 'Mauve' shade provides a more subdued and modest character. Violet, purple, and pink are not commonly found in nature, except in flowers, which makes these colours mysterious. Exactly what we were looking for in this collection. That is why these colours beautifully complement our floral prints. For a neutral yet deep tone, we have opted for a combination with 'Balsam Green'.

This avant-garde theme is enhanced by bold combinations that are not immediately logical, thus becoming interesting. Green and pink are direct opposites of each other and contrast, but they also enhance each other and glow up beautifully when combined together. The colour 'Balsam Green' is therefore indispensable.

NL

Betreed een wereld van avant-garde stijl en een kleurrijke toekomstvisie met thema ROSY FUTURE. Binnen dit thema staat de familie van roze tinten centraal voor een positieve uitstraling.

Diepe kleuren 'Burgundy' zorgt voor passie, terwijl de 'Mauve' tint zorgt voor een meer ingetogen en bescheiden karakter. Violet, paars en roze komen niet vaak voor in de natuur, behalve in bloemen en dat maakt deze kleuren mysterieus. Precies waar we naar op zoek waren voor deze collectie. Het is daarom dat deze kleuren zo mooi aansluiten bij onze bloemenprints. Voor een neutrale, maar diepe toon hebben we gekozen voor een combinatie met 'Balsam Green'.

Dit avant-gardistische thema wordt versterkt door gewagde combinaties, die daardoor niet meteen logisch zijn en daardoor interessant worden. Zo liggen groen en roze recht tegenover elkaar en contrasteren ze, maar ze versterken elkaar ook en komen prachtig tot hun recht als ze samen worden gecombineerd. De kleur 'Balsam Green' is daardoor onmisbaar.

Discover Maribel: this refined floral pattern has been carefully translated into a beautiful matelassé on a green background colour. Through this unique weaving technique, the flowers are subtly padded, bringing each flower to life with beautiful depth and texture. Using a yarn-dyeing technique, the fabric has a subtle structure, giving Maribel a refined character. Perfect as a modern classic for any bedroom. The reverse of both the duvet cover and pillowcases are plain and without texture for a peaceful night's sleep.

Matelassé is a special weaving technique used to create a textured textile. The term 'matelassé' comes from France, meaning 'quilted' or 'padded'.

In matelassé weaving, two layers of fabric are joined together using an additional weft yarn. This extra yarn is inserted to create raised areas on the fabric, forming a relief pattern. The result is a fabric with a quilted appearance and a beautiful texture.

This duvet cover, made from 100% organic cotton, has the lovely characteristics that cotton has: it's breathable and absorbs moisture. The international GOTS certificate guarantees the use of organically grown cotton, yet also ensures that production takes place in an environmentally and socially responsible manner. That's better for your skin, better for the earth and also better for the employees. Besides, a cotton satin duvet cover feels much softer and smoother than a 'normal' cotton duvet cover due to the special satin weave which gives a soft sheen to the fabric. This doesn't just feel luxurious, it looks luxurious too.

Imara burgundy

100% cotton flannel
100% katoen flannel
100% Baumwolle Flanell

Take a look at the mix and match (p. 100) for the complete combination with accessories.

The Imara shows a hand-painted silhouette print of abstracted clematises. The clematis is a climbing plant that comes in many variations, from small subtle flowers to very large colourful blooms. The Imara print incorporates all these different types and reduces them to the strength of the shape of these beautiful flowers. By creating this print in contrasting burgundy and mauve colours, it exudes both tranquility and energy. Find the print in negative colours by turning the duvet cover over.

This luxurious cotton flannel fabric is brushed, giving it a woolly and cosy feel. It is super snuggly and seriously soft.

This warm fabric quickly adjusts to your body temperature, keeping you warm throughout the night. Moreover, the thick material retains heat, while the quality cotton fibre gives the fabric breathability and moisture-wicking properties. Perfect for cold nights.

Take a look at the mix and match (p. 100)
 for the complete combination with accessories.

The Florice print is a design based on our Fleur print, now in a refined scale and a serene tone-in-tone colour scheme on a deep rick green background. With its classic and elegant print, it makes any bedroom shine. The flowers have a beautiful depth and create an atmosphere of tranquility. The reverse side of the duvet cover and pillowcases feature the solid colour of the background.

This premium fabric is made out of 50% cotton satin and 50% lyocell. This blend results in a delightfully supple, inelastic fabric with a twill weave that exposes the subtle diagonals in the fabric. This weave also makes the material exceptionally strong. In other words, an ideal combination for long-lasting bedding products. The fabric is brushed for a soft, fuzzy feel, making this material perfect for colder days.

The Rosie features a decorative print, showcasing an elegant and vibrant composition of flora and fauna. Delicate flowers catch the eye, while various birds perch on the branches amidst the flowers and leaves, creating a natural and almost poetic scene. The composition, in silhouette, gives a dreamy, abstract effect. The front shows the print in lilac on a burgundy background, while the reverse side features the print in mauve on the same burgundy background. Bring a touch of natural beauty and serenity to your bedroom with the Romee. The print features a subtle sage green color palette, adorned with an elegant design of blossoms and flowers that dance over the soft, luxurious cotton satin. The refined floral motif in pastel colors such as pink, white, and soft yellow creates a soothing and romantic atmosphere in any bedroom. The reverse of the duvet cover has an elegant, solid background color.

Cotton sateen is, without a doubt, our favourite fabric for bedding. Cotton sateen is made from 100% natural cotton and therefore has the same characteristics as other cotton fabrics: breathability and moisture-wicking properties. A cotton sateen duvet cover feels much softer and smoother than a 'normal' cotton cover due to the special sateen weave that gives the fabric its sheen. The result is a fabric that looks and feels luxurious.

OVERVIEW

To reach various consumer segments and profiles, we have been using a pyramid structure in our collections for years.

At the top of the pyramid you find our 'premium' collection, where we offer products with the finest quality, detailed designs, and exclusive collections. Here, the emphasis is on innovation, luxury and premium materials.

Within the 'signature' collections, you'll find products with the authentic ESSENZA signature. Trendy colors, designs inspired by nature, and often crafted from the unmistakable ESSENZA cotton satin quality.

At the base of the pyramid are the 'seasonal' products, focused on seasonal qualities such as cotton percale or cotton flannel. Additionally, the designs are often simpler in nature and positioned as more affordable options.

DUVETS AND PILLOWS

This ESSENZA collection of duvets and pillows, is developed with innovation and sustainability in mind. The collection consists of five different duvets and four pillows. With every product we are innovative in the use of materials and sustainable in the use of recycled or sustainably produced materials. With the use of both natural and synthetically produced materials, there is something for every sleeper.

THE RECYCLED DOWN

Filling: 70% recycled down, 30% recycled feathers
Cover: 100% cotton percale, 233TC

The down used for The Recycled Down has already had a very 'rewarding life'- but can last for many more years to come. The down from old, used duvets is collected and professionally washed. The best quality down is then selected to create The Recycled Down. The result: like new!

This entire recycling and production process takes place in The Netherlands. This supplier is the only company in the Netherlands that fully recycles duvets and pillows filled with down and feathers. In addition, 70% of the electricity involved in this process comes from solar panels. If the down cannot be re-used, organic fertilizer is made of this low-quality down. The cover of the old duvet is given a new life as cleaning cloth or insulation material. This way, the entire duvet is recycled and the environment and new raw materials are spared.

THE NATURAL WOOL

Filling: 60% pure wool, 40% TENCEL™ (Lyocell)
Cover: 100% cotton satin (sustainably grown), 298TC

This filling is unique, innovative and blends the best of two worlds: pure sheared wool from the Texel sheep is mixed with TENCEL™. This results in a duvet that is wonderfully supple and airy and has the right insulation for all seasons.

Both sheared wool and Tencel™ are produced in a sustainable way and together create this delightful duvet. This duvet is natural, biodegradable and reusable. The wool comes from sheeps from Texel: the Texelaar. Useful wool fibers grow from head to tail with this sheep. Both the virgin wool as the lyocell are produced sustainable and processed into this duvet cover. With this duvet you really have a Dutch product in hands, also the production is in a factory in The Netherlands.

OUR SUSTAINABILITY JOURNEY

Sustainability is a big theme at ESSENZA. We cannot – and do not want to – ignore this in today's world. It is not only an important point for us and for the environment, but also for all future generations. This is why we work and produce with as much care and attention as possible for people, the environment and society. We are continuously working to make our organisation – and in particular, our development and production process – more sustainable and to take our social responsibility to all links in the chain.

Our CSR mission and vision

We have made it our own social mission to ensure a great nights' sleep for EVERYone. And we don't just limit that mission to the consumer enjoying our lovely soft bedding and delightful pyjama's. We include those people working in our supply chains too, and anyone who works within our offices, all retailers and people working in the shops. So, it's for anyone connected to ESSENZA HOME in any way. We can only ensure a good nights' sleep when we produce in a sustainable manner with eye for both people and the environment. When everyone in our chain is treated fairly, can do their job safely and is paid a living wage for their labour. That's why we work hard towards an honest and sustainable future. That has become our vision: we strive towards a financially healthy business with eye for both people and the environment.

Our focuspoints

Going forward from the roundup of our participation in The Dutch Agreement on Sustainable Garments and Textiles we've established eleven different focus points, divided over three themes.

Theme 1: Chain transparency

Producing from a distance can be subjected to risks, as we are not present ourselves to monitor the process. Every link in the chain adds value to our products but has an impact on both people and the environment at the same time. We work hard to reduce this impact and are making sustainability a core concept throughout the entire production chain. It is therefore essential to know which route our products take, from raw material to product in our warehouse and finally to the consumer. In essence, this is the imperative foundation from which we deal with all our focus points.

Theme 2: Impact on people

There are many people involved in our production processes. This makes it even more important to be as much informed as possible about the wellbeing of those working within our supply chain. We do so by focussing on the following points: rights to freedom of association, forced labour, child labour, discrimination and gender, living wage, health and safety in the workplace & long-term partnerships.

Theme 3: Impact on the environment

The textile industry has a huge impact on the environment. Within the production process, raw materials are sourced, processed, treated, and transported. This imposes various adverse risks for the environment, which we divided into focus points so that we can closely monitor them and actively implement policies. We focus on water usage, energy & chemicals, sustainable products, product safety, purchasing practices and animal welfare.
